# Author Index

Abe, H., see Sekiguchi, M. (77) 37
Andiné, P., see Puka-Sundvall, M. (77) 146
Arias, P., see Goroll, D. (77) 183
Ase, A., see Rodriguez Vida, M.I. (77) 151

Bandele, A., see Munell, F. (77) 111
Baram, T.Z., see Chang, D. (77) 133
Barker, J.L., see Behar, T. (77) 77
Barker, J.L., see Mienville, J.-M. (77) 89
Barone, P., Dehay, C., Berland, M. and Kennedy, H.
Developmental changes in the distribution of acetylcholinesterase in the extrastriate visual cortex of the monkey (77) 290
Behar, T., Ma, W., Hudson, L. and Barker, J.L.
Analysis of the anatomical distribution of $GAD_{67}$ mRNA encoding truncated glutamic acid decarboxylase proteins in the embryonic rat brain (77) 77
Berland, M., see Barone, P. (77) 290
Berman, N.E.J., see Hogan, D. (77) 1
Bohn, M.C., Dean, D., Hussain, S. and Giuliano, R.
Development of mRNAs for glucocorticoid and mineralocorticoid receptors in rat hippocampus (77) 157
Brunjes, P.C., see Philpot, B.D. (77) 265
Bulman-Fleming, B., see Wahlsten, D. (77) 203
Burke, R.E., see Munell, F. (77) 111

Chang, D. and Baram, T.Z.
Status epilepticus results in reversible neuronal injury in infant rat hippocampus: novel use of a marker (77) 133

Dahl, H.-H.M., see Takakubo, F. (77) 63
Dean, D., see Bohn, M.C. (77) 157
Dehay, C., see Barone, P. (77) 290
DiScenna, P.G., Nowicky, A.V. and Teyler, T.J.
The development of $GABA_B$-mediated activity in the rat dentate gyrus (77) 295
Dixon, J.E. and McKinnon, D.
Expression of the *trk* gene family of neurotrophin receptors in prevertebral sympathetic ganglia (77) 177
Dörfl, J., see Melzer, P. (77) 227
Drake-Baumann, R., see Seil, F.J. (77) 123

Ebrahimi-Gaillard, A., Guitet, J., Garnier, C. and Roger, M.
Topographic distribution of efferent fibers originating from homotopic or heterotopic transplants: heterotopically transplanted neurons retain some of the developmental characteristics corresponding to their site of origin (77) 271

Finkielman, S., see Rodriguez Vida, M.I. (77) 151

Garnier, C., see Ebrahimi-Gaillard, A. (77) 271
Gash, D.M., see Seigel, G.M. (77) 137
Giuliano, R., see Bohn, M.C. (77) 157
Goroll, D., Arias, P. and Wuttke, W.
Ontogenic changes in the hypothalamic levels of amino acid neurotransmitters in the female rat (77) 183
Grigonis, A.M. and Murphy, E.H.
The effects of epileptic cortical activity on the development of callosal projections (77) 251
Gubits, R.M., see Munell, F. (77) 111
Guitet, J., see Ebrahimi-Gaillard, A. (77) 271
Gyevai, A., see Osipenko, O. (77) 257

Hagberg, H., see Puka-Sundvall, M. (77) 146
Harlan, R.E., see Zhang, L. (77) 23
Herndon, R.M., see Seil, F.J. (77) 123
Hoffman, G.E., see Rinaman, L. (77) 140
Hofmann, H.-D., see Löhrke, S. (77) 97
Hogan, D. and Berman, N.E.J.
The development of parvalbumin and calbindin-D28k immunoreactive interneurons in kitten visual cortical areas (77) 1
Hornung, J.-P., see Osterheld-Haas, M.C. (77) 189
Huang, G., see Sekiguchi, M. (77) 37
Hudson, L., see Behar, T. (77) 77
Hussain, S., see Bohn, M.C. (77) 157

Inoue, T., see Sekiguchi, M. (77) 37
Itoh, K., see Jotwani, G. (77) 285

Jazaeri, A.A., see Philpot, B.D. (77) 265
Jotwani, G., Itoh, K. and Wadhwa, S.
Immunohistochemical localization of tyrosine hydroxylase, substance P, neuropeptide-Y and leucine-enkephalin in developing human retinal amacrine cells (77) 285
Junn, F., see Seigel, G.M. (77) 137

Kennedy, H., see Barone, P. (77) 290
Kleid, M.C., see Rodriguez Vida, M.I. (77) 151
Kost, S.A., see Oblinger, M.M. (77) 45
Kumagai, H., see Yamagata, T. (77) 163
Kumar, A., see Roßner, S. (77) 55

Lange, G.D., see Mienville, J.-M. (77) 89
Leiman, A.L., see Seil, F.J. (77) 123
Löhrke, S., Möckel, V. and Hofmann, H.-D.
Expression of horizontal cell phenotypes in monolayer cultures from immature rabbit retina (77) 97

Ma, W., see Behar, T. (77) 77
Mailman, R.B., see Martin, P. (77) 215
Martin, P., Ohno, M., Southerland, S.B., Mailman, R.B. and Suzuki, K.
Heterotypic sprouting of serotonergic forebrain fibers in the brindled mottled mutant mouse (77) 215
McKinnon, D., see Dixon, J.E. (77) 177
Melzer, P., Welker, E., Dörfl, J. and Van der Loos, H.
Maturation of the neuronal metabolic response to vibrissa stimulation in the developing whisker-to-barrel pathway of the mouse (77) 227
Mienville, J.-M., Lange, G.D. and Barker, J.L.
Reciprocal expression of cell–cell coupling and voltage-dependent Na current during embryogenesis of rat telencephalon (77) 89
Mike, A., see Osipenko, O. (77) 257
Möckel, V., see Löhrke, S. (77) 97
Momoi, M.Y., see Yamagata, T. (77) 163
Momoi, T., see Yamagata, T. (77) 163
Munell, F., Burke, R.E., Bandele, A. and Gubits, R.M.
Localization of c-*fos*, c-*jun*, and hsp70 mRNA expression in brain after neonatal hypoxia-ischemia (77) 111
Murphy, E.H., see Grigonis, A.M. (77) 251

Nahmod, V.E., see Rodriguez Vida, M.I. (77) 151
Nowakowski, R.S., see Sekiguchi, M. (77) 37
Nowicky, A.V., see DiScenna, P.G. (77) 295

Oblinger, M.M. and Kost, S.A.
Coordinate regulation of tubulin and microtubule associated protein genes during development of hamster brain (77) 45
Ohno, M., see Martin, P. (77) 215
Osipenko, O., Mike, A., Gyevai, A. and Vizi, E.S.
Evidence that GYKI 52466, a novel non-NMDA antagonist enhances the decay of kainate-induced current in cultured chicken cortical neurons (77) 257
Osterheld-Haas, M.C., Van der Loos, H. and Hornung, J.-P.
Monoaminergic afferents to cortex modulate structural plasticity in the barrelfield of the mouse (77) 189

Philpot, B.D., Jazaeri, A.A. and Brunjes, P.C.
The development of serotonergic projections to the olfactory bulb of *Monodelphis domestica* (the grey, short-tailed opossum) (77) 265
Puka-Sundvall, M., Hagberg, H. and Andiné, P.
Changes in extracellular calcium concentration in the immature rat cerebral cortex during anoxia are not influenced by MK-801 (77) 146

Rinaman, L., Hoffman, G.E., Stricker, E.M. and Verbalis, J.G.
Exogenous cholecystokinin activates cFos expression in medullary but not hypothalamic neurons in neonatal rats (77) 140
Rodriguez Vida, M.I., Kleid, M.C., Ase, A., Finkielman, S., Nahmod, V.E. and Vindrola, O.
Synenkephalin processing in embryonic rat brain (77) 151
Roger, M., see Ebrahimi-Gaillard, A. (77) 271
Roßner, S., Kumar, A., Witzemann, V. and Schliebs, R.
Development of laminar expression of the $m_2$ muscarinic cholinergic receptor gene in rat visual cortex and the effect of monocular visual deprivation (77) 55

Schliebs, R., see Roßner, S. (77) 55
Seigel, G.M., Junn, F. and Gash, D.M.
Neurotrophic effects of amnion explants co-cultured with rat mesencephalon (77) 137
Seil, F.J., Drake-Baumann, R., Leiman, A.L., Herndon, R.M. and Tiekotter, K.L.
Morphological correlates of altered neuronal activity in organotypic cerebellar cultures chronically exposed to anti-GABA agents (77) 123
Sekiguchi, M., Abe, H., Shimai, K., Huang, G., Inoue, T. and Nowakowski, R.S.
Disruption of neuronal migration in the neocortex of the dreher mutant mouse (77) 37
Shimai, K., see Sekiguchi, M. (77) 37
Southerland, S.B., see Martin, P. (77) 215
Stricker, E.M., see Rinaman, L. (77) 140
Suzuki, K., see Martin, P. (77) 215

Takakubo, F. and Dahl, H.-H.M.
Analysis of pyruvate dehydrogenase expression in embryonic mouse brain: localization and developmental regulation (77) 63
Teyler, T.J., see DiScenna, P.G. (77) 295
Tiekotter, K.L., see Seil, F.J. (77) 123

Van der Loos, H., see Melzer, P. (77) 227
Van der Loos, H., see Osterheld-Haas, M.C. (77) 189
Verbalis, J.G., see Rinaman, L. (77) 140
Vindrola, O., see Rodriguez Vida, M.I. (77) 151
Vizi, E.S., see Osipenko, O. (77) 257

Wadhwa, S., see Jotwani, G. (77) 285
Wahlsten, D. and Bulman-Fleming, B.
Retarded growth of the medial septum: a major gene effect in acallosal mice (77) 203
Welker, E., see Melzer, P. (77) 227
Witzemann, V., see Roßner, S. (77) 55
Wuttke, W., see Goroll, D. (77) 183

Yamagata, T., Momoi, M.Y., Yanagisawa, M., Kumagai, H., Yamakado, M. and Momoi, T.
Changes of the expression and distribution of retinoic acid receptors during neurogenesis in mouse embryos (77) 163
Yamakado, M., see Yamagata, T. (77) 163
Yanagisawa, M., see Yamagata, T. (77) 163

Zhang, L. and Harlan, R.E.
Ontogeny of the distribution of tachykinins in rat cerebral cortex: immunocytochemistry and in situ hybridization histochemistry (77) 23
